PROFIL

Full-Stack Developer with 8 years of experience, I design pixel-perfect interfaces and scalable architectures built to last. Deep expertise in Vue, Shopify, and React, with an obsessive focus on scalability. I anticipate constraints, think ahead to future needs, and push teams toward excellence. I thrive in demanding environments where every detail matters. Autonomous, passionate, rigorous, and highly analytical.

Professional Experiences

FULLSTACK DEVELOPER React Next TS Supabase Stripe

DaresOnly | Dec 2025 - Feb 2026

- Built a video-challenge social PWA (create/accept challenges, proof uploads, TikTok-like infinite feed).
- Stripe/Stripe Connect (escrow, wallet, payouts), Terms versioning, and an anti-fraud moderation pipeline (including OpenAI Moderation).

LEAD FRONT END DEVELOPER Vue Nuxt TS Shopify

Faume | May 2021 - Nov 2025

- Built a back-office PWA used by 1,000+ employees in Vue.js: 50+ unique pages, secure routing, 15 user roles, dynamic charts, advanced filters, i18n, Datadog monitoring, and Storyblok documentation.
- Delivered 15+ resale/e-commerce platforms in Vue 3 & Nuxt for Lacoste, Victoria Beckham, Temperley London, AML, Armor Lux, etc., deployed on AWS.
- Built 30+ Shopify stores for luxury brands (Isabel Marant, Jérôme Dreyfuss, etc.), plus Vue.js apps powering trade-in flows, with CI/CD deployments.
- Created an atomic design system in Figma and integrated it into a Vue.js UI, enabling a full front-end to be generated in under 3 hours.
- Mentored 4 Shopify/Vue.js developers, with a strong focus on knowledge sharing and continuous learning.
- Built a page builder using Vue, Nuxt, TypeScript, and Tailwind.

FULLSTACK DEVELOPER Vue Nuxt TS Express MongoDB

Mali Hakika | Jan 2025 - Feb 2025

- Built the MVP for a real estate platform in Kenya for a Dubai-based client using Vue.js, TypeScript, Nuxt, and Vuetify.
- RestAPI with Node., Express, TS & MongoDB. Continuous deployment on Railway.

FRONT END DEVELOPER Vue React TS Shopify

W3Lead | Jul 2019 - Jul 2021

- Led a full redesign of Citadium's website in a PHP environment for very high traffic, with extreme requirements on UX refinement, SEO, and code robustness (+ €100M/year), including advanced creative animations.
- Built the W3Lead marketing site using React & Gatsby.
- Improved the Epycure e-commerce site in React.
- Created and enhanced high-traffic Shopify e-commerce stores generating millions in revenue (Jimmy Fairly, Léon & Violette, Cabaïa, Isotoner, etc.).
- Built custom Vue.js modules to extend and enrich e-commerce experiences.

FRONT END DEVELOPER Angular JS Scss SEO Docker

Fidesio | Jun 2018 - Jul 2019

- Developed the Doctolib-like PWA in Angular for Leo Pharma laboratories.
- Delivered pixel-perfect integrations for highly demanding clients (Airbus, Éditions Didier, etc.) across Drupal, Magento, and Symfony environments, using Docker.
- Built a solar panel estimation platform for Butagaz.
